

Underwings — Referral Partnership

Partner With Underwings

A UAE cybersecurity & compliance delivery partner for audit firms, certification bodies, law firms, and IT providers.

You advise, audit, or certify. Your clients then need someone to *implement* the fixes, run the pen test, or get audit-ready — work that often sits outside your scope or your independence. **Underwings is the partner you refer that to.**

Why it fits

- **Certification bodies** can't consult on the ISMS they certify. We do the readiness and remediation, so your certified clients arrive ready and pass cleanly.
- **Audit & accounting firms** get asked about cyber, ADHICS, and PDPL. Refer it to us and your firm looks complete — without hiring a security team.
- **Law firms** advising on UAE PDPL hand off the technical implementation; we handle it.
- **IT providers / MSPs** get asked for pen tests and compliance they can't staff; we deliver, optionally under your brand.

In every case we are **complementary, not competitive.**

Who delivers your clients' work

Named senior practitioners — never anonymous juniors:

- **Manoj Prabhakaran** — ISO 27001 Lead Auditor · CPTS · Azure Security
- **Nelson Durairaj** — OSCP · CEH (penetration testing, VAPT)
- **Vinoth Samiyappa** — CCNP · Fortinet NSE · Azure (network & infrastructure)

ISO 27001 · ADHICS v2 · UAE PDPL · NESAs · penetration testing · network security. Transparent AED pricing, written fixed quotes within 48 hours.

How the partnership works

- **We make you look good.** Senior, reliable, on-time delivery. Your reputation is safe with us.
- **We don't poach.** In writing: we won't solicit your client beyond the scope you refer. The relationship stays yours.
- **Referral commission** — 12% of the first engagement value (or a reciprocal, no-fee arrangement for certification bodies, to respect independence).
- **Reciprocal referrals** — when our clients need audit, certification, legal PDPL advice, or managed IT, we send them to you.
- **One-page agreement.** No exclusivity, 30 days' notice either way, in-flight referrals always honoured.

Next step

A 20-minute call to see if it's useful — and to agree on sending each other one client to test the relationship.
